GUAIACUM / LIGNUM VITAE  
POCKHOLZ SHIPYARD SPECIAL

TIMBER  
**CROPP**  
IM- & EXPORT

Stammende/Log-Ends

Blocks/Cut-Sizes

## LIGNUM VITAE / POCKHOLZ

### Verwendung:

Die große Härte, Dauerhaftigkeit unter Wasser  
und der das Schmieren ersparende Ölgehalt  
haben das Pockholz zu einem unersetzlichen  
Spezialholz für die Wellenlager der Schiffs-  
schrauben etc. werden lassen.

### Purpose:

The great hardness, durability under water and  
the proportion of oil saving smearing (due to  
the self-lubricating Resin) are responsible for  
making „Lignum Vitae“ in particular to a special  
material for producing bears/bushs (axles) of  
screw propellers etc.

## MORE SPECIAL TIMBERS FOR SHIPYARDS

Iroko

Teak

Mahogany (various)

Oak
